OUTLINES.

In the trial of W. D. Haywood at Boise, Idaho, yesterday Alfred Horseley, alias Harry Orchard, went on the stand and confessed to a score of brutal murders, relating revolting details almost beyond belief; he confessed that for pay he took part in killing scores of men and that he assassinated Governor Steunenberg with a bomb; he testified that the miners' officials now on trial hired him to kill and murder many men, blow up mines, etc——A dispatch from Mexico City states that 12 of the 19 men charged with attempting to assassinate President Caerera, of Guatemala, will be executed and others will be sent to prison. It is said that the Japanese who were mobbed in San Francisco will bring suit for damages against the city.——At Washington yesterday the government accepted the war balloon which had been constructed for it.——A conference is to be held by President Roosevelt and government attorneys at the White House tomorrow to determine whether civil or criminal, or any action at all shall be taken by the government against E. H. Harriman.——At Washington yesterday, T. V. Powderly, former union labor leader, was appointed chief of the new division of information established in connection with the Immigration Bureau of the Department of Commerce and Labor.——Principally on account of complaint from North Carolina President Roosevelt yesterday had the civil service commission to warn all persons in the classified service of the government to abstain from active part in political campaigns.——New York markets: Money on call, easy 1 3-4 to 2; ruling rate, 2; closing bid, 1 3-4; offered at 2; spot cotton, steady 12.90; flour, steady; wheat, firm; No. 2 red, 1.00 1-8 elevatorj corn, steady; No. 2, 64 elevator; oats, easy; mixed, 50 1-2; turpentine, quiet, 61 1-2 to 62; rosin, steady; strained, common to good, 4.80.

It also appears that the North Carolina veterans were "first" at Richmond.

The June bride who goes North should pack her trunk with her furs on top.

For President, George Gray, of Delaware. For Vice President, John A. Johnson, of Minnesota.

Some of the beverages we call "dope" are advertised as "guaranteed under the Pure Food and Drugs Act."

More trouble for the millionaire Johnnies. A beautiful New Orleans girl who has been playing with the amateurs has gone to New York to become a chorus girl.

A New York man advertised for "a wife who is not a chronic scrapper." Here is a chance for some fellow who wants to "get shed of" a wife who is an intermittent scrapper.

Geo. B. Cortelyou probably learned to keep his mouth shut while holding a job under a Democratic administration and keeping so quiet that Grover Cleveland never suspected his politics. There are some people who are artists like that.

Col. William J. Bryan has figured it out that President Roosevelt is "neither consistently Democratic nor consistently Republican." A man who is neither This nor That is a mugwump, and that is the same class to which some people who imagine they are Democrats belong.

Says the Washington Post: "Just before sailing for Europe the other day Dr. Parkhurst said: 'I have nothing to say about anything or anybody.' What a quiet world this would be if Tom Lawson, W. J. Bryan, and a few others were to be suddenly stricken in the same way." Oh, well, it's not because Parkhurst feels like letting up, but he just knew that Roosevelt would 'tend to the crowd of undesirables while an overworked preacher wanted to take a rest.

Kind of casting one eye over the situation, as a man up a tree just naturally would, we must confess that the voters of the United States just about now prefer to run on a hot trail. As individuals some of us may hesitate to open up loud in the wake of the lead dog, but that needn't keep us from tumbling to the racket that the people are not going to follow a trail where some dried pelt will be dragged along, with the idea that there's going to be a chase.

The Star mentioned a few days ago that dirt worth $20 a ton in gold was being dredged from the bottom of the Catawba river in North Carolina, near Charlotte. Now comes the news that in Cherokee county, S. C., about 60 miles west of Charlotte, Mr. Samuel Wechell, a farmer, found on his place a nugget of pure gold weighing 101 grains. He sold it Saturday in Gaffney near which place the valuable lump of yellow metal was found.

IN PINK AND WHITE

Miss Rosa McPherson Attractive Bride of Mr. Charles Cumston Chadbourn.

IN SAINT JAMES CHURCH

Pretty Ceremony at Five O'clock Yesterday Afternoon Joined in Marriage Prominent Wilmington Couple—Reception at Home.

The marriage of Miss Rosa Ashe McPherson and Mr. Charles Cumston Chadbourn was solemnized yesterday afternoon at 5 o'clock in Saint James' Episcopal Church, where assembled a large number of admiring friends and relatives to witness the pretty ceremony. The church interior was beautifully decorated to a color scheme of pink and white, which was quite effectively carried out, the chancel being banked with plants and flowers in truly artistic fashion. The service was according to the beautiful rites of the Episcopal Church, the rector of the parish, the Rev. R. W. Hogue, officiating, and is described as having been incomparably pretty and impressive.

At the appointed hour the strains of the wedding march heralded the approach of the bridal party, little Marion Everett and Sophie Northrop, in pretty costume, leading the bridal procession and gracefully drawing the ribbons. The bride was attended as dame of honor by her sister, Mrs. Morrison W. Divine, while her bridesmaids were Miss Jennie Hardin, Miss Lauriston Hardin, Miss Frances Chadbourn, Miss Tallulah DeRosset, Miss Alice Wright and Miss Janie Peters, of Portsmouth, Va. The groom who entered from the south of the chancel, joining the bride at the altar, was accompanied as best man by Mr. Morrison W. Divine, while the groomsmen were Mr. Harry H. McIlhenny, Mr. Albert Sidney Williams, Mr. Harold M. Chase, Mr. U. M. Robinson, Mr. Walter Buckner and Dr. J. W. Stanley. When the ensemble at the altar was complete Rev. Mr. Hogue spoke with impressive solemnity the words which made the couple man and wife.

The costumes worn by members of the bridal party were exceedingly handsome and carried out beautifully the idea of pink and white. The bride wore white Liberty satin, trimmed with Princess lace with hat and gloves to match, bridal veil, and carried lovely roses, caught with ribbon. The dame of honor was becomingly costumed in a Princess lace robe over pink, with pink picture hat and carried pink roses. The bridesmaids were all similarly attired in lovely creations of white lingerie trimmed with lace, white picture hats and carried pink carnations. The groom and male attendants wore the conventional black Prince Alberts, striped trousers with boutonieres alternately of pink and white.

Following the ceremony at the church a reception was given in honor of Mr. and Mrs. Chadbourn at the home of the bride's uncle, Mr. John Haywood Hardin, No. 102 South Fourth street, where many friends called to extend their felicitations. The decorations of the home were very pretty, indeed, and the reception was a brilliant finale to the wedding event proper. Following the reception at the home of Mr. and Mrs. Hardin the bridal party repaired to the Front street station of the Atlantic Coast Line, whence the bride and groom took their departure on the northbound train for an extended bridal tour which includes several points of interest in the North. Returning in about ten days or two weeks Mr. and Mrs. Chadbourn will make their home in this city, where they have a host of friends.

The bride is a daughter of the late James and Susan L. McPherson, of Wilmington, and is a member of an old and distinguished family of this section. By her kindly disposition and many charms of personality and manner she has drawn to herself a great many friends in Wilmington and elsewhere who will be interested in the announcement of her marriage to Mr. Chadbourn.

The groom is a son of the late James H. Chadbourn and of Mrs. Mary A. Chadbourn, of this city. For a number of years he has been prominently identified with the business interests of the city, and is exceedingly popular in club and social circles of Wilmington. There are many who will congratulate him upon his good fortune in the union for life which he has just formed.

MANAGER NORTH FINED $25

Judge Long Renders Decision in Contempt Rule Served Earlier in the Week—Obstructed the Process of Court.

Judge B. F. Long, in the Superior Court yesterday rendered judgment in the contempt rule issued by him several days ago against Mr. J. T. North, manager of the Postal Telegraph Company in this city, charged with obstructing the process of the court by interference with Deputy Sheriff W. H. Cox when he was serving a subpoena upon Mr. John E. Wood, a telegraph operator in the employ of Mr. North. The defendant in the contempt rule is fined $25 and the costs of the action, the whole amounting to about $40 or $45. There was talk of an appeal on the question of law by Hon. John D. Bellamy, attorney for Mr. North, but this was finally abandoned and Mr. North offered to pay the fine. This, however, he could not do as the bill of the stenographer for the transcript of the evidence was not then in hand. The judgment is a vindication of Deputy Sheriff Cox, who was apparently put on the defensive by the various affidavits offered for the defence and the effort of counsel to impeach the character of the officer.

The findings of His Honor in the case are set forth at length, reciting the main facts as to the subpoena and concluding with the following as to the actions of the officer and the respondent:

"Fourth—That when he made known to the said Wood the object of his call the said Wood did nothing to prevent the service of the subpoena, and the said Wood himself says that the officer treated him politely with regard to the service of the said subpoena and voluntarily offered his services in giving the said Wood any assistance that might be given him to enable him to be relieved as soon as possible as such witness.

"Fifth—That the said deputy whilst in the office of the said company was detained in regard to the service of the subpoena upon the said Wood for a period of between 10 and 15 minutes. As soon as the deputy could serve the subpoena upon Wood in due form he departed from the office.

"Sixth—That the manager of the said office was the respondent, J. T. North, and whilst the officer was engaged in his duties in serving the said subpoena, the court further finds that the said respondent willfully and unlawfully interferred with, hindered and delayed the said officer in executing the said subpoena upon the said Wood, who was an employe in the office under the said manager and respondent; and the conduct of the said respondent at the time tended to hinder and delay the execution of the process of the court lawfully issued to the prejudice of the rights of the parties in the said action of Shearin against Winders in whose behalf the said subpoena was issued, and was in contempt of the orderly administration of justice. The court refrains from finding, because it has doubt on this point, that the respondent's conduct was due to deliberation, and for this reason the court does not impose harsh punishment which would be required if the acts had been committed of deliberate purpose.

"Wherefore, it is considered and adjudged by the court that the respondent pay a fine of twenty-five dollars and the costs in this proceeding to be taxed by the clerk, and upon complying with said judgment, the sheriff is ordered to discharge him.

"B. F. LONG,
"Judge Presiding."

TO HAVE A CITY CHEMIST.

Suggestion That One Would be Great Benefit in Official Way.

Since the recent location in this city of Professor A. N. Dubois, the well known analytical chemist who has an office and laboratory in Room No. 1, Worth Building, corner of Nutt and Grace streets, it has been suggested by several that it would be a capital idea to secure his services as official city chemist. Professor Dubois is a chemist of note and has done work for various large municipalities in the North. While he is not given to boasting of his professional knowledge a visit to his laboratory in the Worth building will convince the most skeptical that he is a man of much ability in his line of work. The public, cistern and pump supply of water for the city is frequently called into question by an outbreak of sickness and the services of Professor Dubois in this respect would be of incalculable benefit to the general public. Water, wines, liquors, beers, milk and various other beverages are made a specialty of by the chemist, who can strikingly demonstrate his knowledge of chemistry to any caller at his laboratory.

AS TO STREET WORK

Aldermen Will Meet Very Soon to Appoint Members of The Commission.

TO PROVIDE THEM FUNDS

Arrangements Under Way Whereby Improvement Will Be Continued in Limited Way—Official Notice By Audit and Finance.

It is likely that a special meeting of the Board of Aldermen will be held this week and that the three members of the proposed Street Commission appointive by that Board will be named to be followed very soon thereafter by the appointment of the two men elective by the Board of Audit and Finance. This is in order that some means may be devised for carrying on the work of improving and keeping in repair the streets of the city in view of the legal opinion that this work can now be undertaken only under the jurisdiction of a commission as provided in the bond election act. The decision of the Board of Audit and Finance with respect to the law bearing upon the case was generally accepted yesterday by the public as being the only way of disposing of the question. Those in authority yesterday, however, set about to devise some means of carrying on the work by the commission when appointed out of funds to be borrowed until the bond issue amount is available. It is thought now that this can be done and for that reason it is expected that the Commission will be appointed very early. Mayor Springer stated yesterday evening that the appointment of this Commission was a very important matter and that in order to give the Aldermen some time to consider the question, it was deemed best to postpone the special meeting of the Board until the last of the week or the first of next week. The Board of Aldermen elects members of the Commission from First, Second and Third wards while the members for the Fourth and Fifth wards are appointed by the Board of Audit and Finance. Consideration is now being given to the appointments by the members of both boards and it is expected that the men named by them will be men of integrity and stamina.

The following is the official notice of the action of the Board of Audit and Finance of the question of streets as transmitted yesterday by the clerk of the Board to the Aldermen and Mayor of the city:

"At a meeting of this Board, held on the 4th, the matter of an appropriation of $12,000 for street improvement, included by you in the budget for the ensuing fiscal year, was duly considered. This Board regrets that it can not concur in this appropriation, and also that it will be necessary to discontinue the work now being done in the line of permanent street work, until the Commission authorized by the recent act of the Legislature is prepared to prosecute the same. This Board understands, and is so advised by the City Attorney, that work of this character is under the exclusive jurisdiction of the Commission to be appointed, and that neither your Board nor this has the right to prosecute the same. This Board regret very much the temporary discontinuance of street improvement, but has no discretion in the matter, being bound by the law referred to."

MAYOR'S COURT YESTERDAY.

Two Go to County Roads—Others Pay Fines.

In the police court yesterday Henderson Hayes, colored, charged with being drunk and down, was sent to the county roads for 30 days. This was Henderson's second appearance uder the new administration. Herbert Rowell, colored, charged with vagrancy, was given the same sentence. Thos. Clearwell, a sailor, drunk and down, was let off with the costs. Henry James, colored, for riding his bicycle recklessly was fined $5 and costs.

John Green, colored, for fast driving on Market street, was fined $5 and the costs, and Janie Lovett, colored, for an assault on another negro at Front and Dock streets, was made to pay the same amount. Two negroes, Thos. Jenkins and James Porter, were arrested for vagrancy and gambling, but gave a $25 bond each for their appearance before the Mayor today.

BAZAAR OPENS TONIGHT.

Ladies of Immanuel Presbyterian Church Choir to Entertain.

The young ladies of the choir of Immanuel Presbyterian Church will give a delightful bazaar and entertainment in the Sunday School room of the building tonight and tomorrow night. A number of very attractive booths have been placed in the room and a programme of exercises has been mapped out that will drive dull care away from all who attend. Ice cream, cake, candies and other dainties will be served and all friends and the general public are most cordially invited. The bazaar is for the benefit of a fund with which to purchase chairs for the choir of the congregation and the benefit is worthy and should be well patronized.

TO IMPROVE THE CHURCH

First Baptist Congregation Will Expend $5,000 in Improvemnets to Its House of Worship—Coming of State Convention.

The congregation of the First Baptist Church has set itself the task of making decided improvements to its handsome house of worship at northwest corner of Fifth and Market streets in view of the meeting of the State Baptist Convention here next year. On Sunday morning the movement for the church improvement was inaugurated with the opening of a subscription list on which was entered a considerable number of substantial pledges; in fact, these pledges were of such a character and in such amounts as to warrant the congregation in making the definite announcement that the work will be undertaken at once in a preliminary way so that the construction may be completed in good time for the meeting of the convention.

All told, the improvements will cost $5,000. The tower or steeple and all exterior work will be remodeled while an up-to-date system of heating and electric lighting will be added complete with all necessary interior finishings. The Sunday School rooms recently added were never completed but this work will all be done under the new plans and when it is all completed the congregation can boast of one of the prettiest and most commodious houses of worship in the State. The goal in the subscriptions is $5,000 and there appears no dougt but this amount will be raised quite easily.

The United Workers of the congregation have recently purchased a new carpet for the main auditorium and other improvements have been undertaken from time to time by the various auxiliaries of the church. The congregation is growing and there can be no doubt of its enterprise and devotion as is evidenced by this latest effort to improve the building and to lay all the foundations for the successful entertainment of the convention when it comes.

NEWKIRK-GILBERT.

Pretty Marriage on North Second Street Tuesday Night.

A marriage of much interest to many friends in Wilmington and elsewhere was that of Miss Jennie Kerr Newkirk and Mr. William Francis Gilbert, which was solemnized by Rev. A. D. McClure, D. D., pastor of Saint Andrew's Presbyterian Church, Tuesday night at nine o'clock at the home of the bride's father, Mr. William U. Newkirk, on North Second street. The parlors of the home were prettily decorated for the occasion with flowers and potted plants and a few friends and relatives were present to witness the happy event in the lives of the young people, the ceremony having been quiet at the request of the bride and groom. The bride wore a lovely costume of white net over taffeta and carried carnations and ferns. It was described as a very pretty wedding, indeed. The ceremony was followed by a reception at which Mr. and Mrs. Gilbert were the recipients of many happy felicitations. They will spend their honeymoon at the Hotel Tarrymoore, Wrightsville Beach, and will later make their home at 312 North Second street. The groom is employed at the Southern National Bank in this city, and is held in highest esteem. The bride is much loved and admired by all in the circle of her acquaintance.

NEW JEWELRY STORE

Department Added to Mr. F. A. Bissinger's Establishment.

Mr. F. A. Bissinger, proprietor of the crockery and china store at 119 Market street, has taken a decided step forward in the addition to his store of a jewelry and silverware department, carrying a full line of all the latest novelties in this line with repair work and expert attention to diamonds and precious jewels. The store is being handsomely remodeled with the idea of adding the new department and Mr. D. Palmgren, formerly with George Honnet, has been secured to have charge of the work. Mr. Palmgren has already entered upon his new duties and in a few days a large line of jewelry and silverware will be received from a desirable connection which Mr. Bissinger has made North.

MR. SPRINGER A TRUSTEE.

Wilmington's Mayor Honored by Election on Trinity Board.

A telegram yesterday morning from Rev. J. N. Cole, formerly of this city but now superintendent of the Methodist Orphanage at Raleigh, conveyed to Mayor William E. Springer, of this city, the pleasing information that he had just been elected to the Board of Trustees of Trinity College, which is this week in the midst of its commencement exercises. The honor is one of which any member of the denomination might justly feel proud and Mayor Springer is to be congratulated upon his election. Trinity is one of the leading denominational colleges in the South and is possibly the richest. The affairs of the institution are in the hands of the leading Methodists of the State who compose the Board of Trustees.

Linotype operator wanted at once. Must be fast, accurate and sober. Union office. Good pay. Address, The Morning Star, Wilmington, N. C.

IN SUPERIOR COURT

W. J. Hart Against Wilmington Grocery Company Called For Trial Yesterday.

AN INTERESTING QUESTION

Plaintiff Seeks to Recover Damages for Alleged Injuries By Reason of Runaway Horse—Probably Require Three Days in All.

The case of W. J. Hart and others against the Wilmington Grocery Company was called in the Superior Court yesterday morning and its trial was entered upon during the day. It is quite a novel and interesting controversy as establishing the liability of owners of teams in the street. The complaint alleges that on the afternoon of October 20th, 1903, Mrs. Katherine H. Hart, wife of the plaintiff, near Fifth and Orange streets, was run over by a delivery wagon of the defendant company, the horse attached to the same, it is alleged, having been left carelessly and negligently in the street by the driver and having run away while the driver, a colored man, was delivering a package at a residence in the vicinity. It is alleged that Mrs. Hart was run over by the wagon and permanently injured while her children, one of them an infant in a baby carriage, were also injured by the runaway by being knocked down on the sidewalk as they were endeavoring to get out of the way. The plaintiff asks for $5,000 damages and $100 to cover cost of medical attention required by reason of the accident. The answer to the complaint denies all the allegations except that as to the defendant's having refused to pay the doctor's bills. Once before the case was tried, but the jury was unable to reach a verdict. For the plaintiff, Mr. Hart, the attorneys are Messrs. John D. Bellamy & Son, Herbert McClammy and L. V. Grady. Messrs. Bellamy & Bellamy and Rountree & Carr appear for the grocery company.

Yesterday morning the case was taken up immediately upon the convening of court. It required almost two hours to secure a jury, which was finally empanelled as follows: J. O. Powers, E. S. Hancock, Richard H. Shew, S. E. Rogers, Chas. R. Davis, T. A. Watson, J. Weill, Jas. O. Reilly, John Sheehan, W. M. Cumming, B. O. Powell and D. O. Westbrook.

The hearing of the testimony was begun with the introduction of the plaintiffs, Mr. and Mrs. Hart. Then followed a Mr. Pope, who saw the accident; Policeman H. W. Howell and Messrs. Beaman and J. O. Brown, the latter having been character witnesses. The plaintiffs rested with these witnesses and the defence began its testimony with the introduction of a colored man named Lee, who drove the wagon; a colored driver for Messrs. J. H. Rehder & Co., who saw the accident; Mr. W. D. Hall, an employe in the store, and Mr. A. S. Holden, to whose residence the injured woman and children were carried after the accident.

At 5 o'clock a recess was taken for the day and the testimony for the defence will be resumed today. It is expected that the case will require all of today and a part of tomorrow to be completed. This means that practically every other case on the docket will have to be continued until next term. Only three cases have been tried during the two weeks now about to end.

CAROLINA TRAINING SCHOOL.

Bids From Eastern Towns Received in Raleigh Yesterday.

(Special Star Correspondence.)

Raleigh, N. C., June 5.—The State Board of Education, Governor Glenn presiding, and all the State officers who constitute the Board present, was in session nearly four hours today, receiving bids and hearing spokesmen of delegations from the various towns competing for the location of the East Carolina Teachers' Training School for the establishment of which provision was made by the recent Legislature. Delegations were here from Elizabeth City, Greenville, Kinston, Newbern, Rocky Mount, Tarboro and Washington, the delegations wearing badges and otherwise "whooping it up" for their respective towns. Sealed bids were presented from each town and then the delegates who desired to be heard were called in before the council one at the time. The hearing was wholly behind closed doors, nor were the bids submitted by the several towns given to the press. Later members of the Board will visit and personally inspect the several locations offered for the school. Bids have to offer at least $25,000 toward the establishment of the school and a site of not less than 25 acres.

Infant Son Dead.

Friends of Mr. J. F. Rulfs, Jr., will deeply sympathize with him and other members of the sorrowing family in the death of his little son, John F. Rulfs, Jr., Jr., which occurred at Salisbury, N. C., on Tuesday at the age of two months. The little one was bereft of his mother when but a few weeks old and had been taken to Salisbury to be cared for. Mr. Rulfs was called to Salisbury by the sickness of the child Friday, leaving Wilmington on the early morning train Saturday. The funeral was conducted in Salisbury yesterday afternoon at 5 o'clock.

The Morning Star.

Founded in 1867.

WILLIAM H. BERNARD.
Owner and Editor.

WILMINGTON, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under the Act of Congress of March 3, 1879.

Thursday, June 6, 1907.

WILMINGTON'S CHANCE.

Sunday's Star contained an editorial based upon an appreciative article from the Raleigh Evening Times in contemplation of the flattering prospects for Wilmington's future in view of the fact that in twelve months the South and Western Railroad will be completed, giving our port a direct coal road into the coal regions of east Tennessee, southwestern Virginia and southeastern Kentucky.

In The Star's comments emphasizing the significance of this new railroad development as a factor in making Wilmington a coaling station, and in giving our city a direct line to the Western farm ad grain country, we remarked:

"With such prospects ahead of us, and the necessity for deeper water created by the coming of the South & Western with its coal business, the Wilmington Chamber of Commerce and business men of the city should get together in an earnest movement to secure from Congress such an appropriation as will provide a deeper and broader channel to the sea and sufficiently add to the depth of water on the bar as will meet the needs of a commerce that lie wasiting for the facilities to accommodate it, and which will enlarge it to the proportions that will make of Wilmington the port which its advantages warrant."

The Raleigh Times' article and The Star's contribution to the subject have elicited high commendations from our citizens, but The Star is specially gratified one view of it forcibly struck our Congressman, the Hon. H. L. Godwin, of Dunn, Representative from the Sixth District. He was favorably impressed with the idea of the expansion of the commerce of the port of Wilmington, and The Star is pleased to acknowledge from him this communication:

"Dunn, N. C., June 3d, 1907.
"Maj. Wm. H. Bernard, Editor,
Wilmington, N. C.

"My Dear Sir—I am writing to express my full appreciation of the editorial published in your Sunday paper, June 2nd, entitled, "Wilmington's Future." Such editorials as this will greatly assist us in building up our section of North Carolina. I want you to keep up the idea of creating public sentiment in behalf of the improvement of the Cape Fear River, and I desire to assure you that I will be with you in your efforts.

"Very truly yours,
"H. L. GODWIN."

The Star highly appreciates the promptness with which Mr. Godwin seized the opportunity to offer his valuable services in any movement to improve the navigation of our channel and bar and afford the increased facilities for the already assured expansion of the commerce of our port. Mr. Godwin's note was crisp and came right down to the point. It is evidence that he already has his eyes open to the interests of his district and was quick to seize the opportunity to give assurance of his live interest in the improvement of the Cape Fear. He lost no time in perceiving the necessity for larger commercial facilities for the port, and the readiness with which he came forward with a tender of his influence and cooperation in a deeper water movement most assuredly wins the high appreciation of the business men and people of Wilmington. Mr. Godwin is a volunteer. He did not wait to be invited, but, practically, as quick as a flash he saw his opportunity and duty and came to the front with a proposition for earnest work. It impresses The Star, and must so strike the citizens of Wilmington, that Harnett's distinguished son is going to make us a live and valuable Representative in the Sixtieth Congress.

Wilmington has the opportunity of her life for a deep water scheme and for a successful movement to induce Congress to make the Cape Fear bar and channel capable of bringing to Wilmington ships of larger tonnage and deeper draft for a commerce that is standing at the door and knocking. The South and Western Railroad with its coal business, and perhaps with a grain export business in the perspective, is our big lever, with which to work on Congress, and when we ask for deeper water in our channel and on our bar we can plank down an indisputable reason and put up an argument that cannot be gotten around.

Congress has ceased to make idle appropriations for rivers and harbors with a view to distribute favors, if it ever has done so, but the sole purpose now is to tap the treasury only when an improvement assures an increase of commerce. Improvement of rivers and harbors is made when there is sometimes a prospective commerce, but Wilmington can now offer the commerce before the National government makes its investment for deeper water from Wilmington out to sea. Rivers and harbor appropriations are investments, and Uncle Sam wants a commercial dividend for them. Wilmington is ready to deliver the goods if Uncle Sam will come to time with the money that he is anxious to place where it will do the most good.

No man in the Republic more deeply appreciates the importance of river and harbor improvements than the distinguished and able chairman of the House Rivers and Harbors Committee, Hon. Theodore Burton, of Ohio. He has long ago announced his adherance to improvement schemes only that justify the expenditure of the people's money, and quite as long ago we were convinced by his utterances along that line of the wisdom and patriotism of his policy as chairman of probably the most important of the House Committees. His great zeal for river and harbor improvements that promise commerce has impressed us and his deep interest and earnestness in every movement calculated to make more commerce for the country is unmistakable. Wilmington is prepared to entertain him along that line. His practical judgment is quick to respond to a business proposition, so the Wilmington Chamber of Commerce and the business men of the city have lost no time in getting together, and, with the co-operation of Mr. Godwin, will make the Rivers and Harbors Committee a proposition that will challenge its hearty support and win the valued endorsement of Chairman Burton.

The meeting of the Chamber of Commerce with Congressman Godwin on Tuesday was along the right line and President Taylor's plan is one with scope and promise to it.

UNIVERSITY COMMENCEMENT

The commencement has been in progress at the University of North Carolina, at Chapel Hill, since Sunday. On Sunday the baccalaureate sermon was preached by the Bishop Eugene Russell Hendrix, of Kansas City, Mo., and an able and impressive one it was. A notable event of the week was the laying of the cornerstone of the new library building with the rites of the Grand Lodge of Masons, led by Hon. F. D. Winston, Lieutenant Governor.

The other features were all of a noteworthy character, but probably no event of the week was more significant than the alumni exercises on Monday, when there was a general reunion that was largely attended. The address of the day was delivered by Hon. Charles Manly Stedman, of the Greensboro bar, formerly an honored and highly esteemed citizen of Wilmington. Major Stedman is president of the Alumni Association, and of him as an orator the Chapel Hill correspondent of the Greensboro Industrial News says:

"The address of the day was delivered by Hon. Charles Manly Stedman, of Greensboro, N. C., who is president of the alumni association. Major Stedman, an orator on every occasion, was at his best in his speech this morning. With a genial personality, a scholarly air and a delivery that possessed both force and grace, he held the rapt attention of the crowd, while frequent applause rewarded his every pause."

The writer of the above evidently knows Major Stedman as he is known in eastern North Carolina. The compliment is couched in brief space, but in a few words it recalls in fitting terms what thousands of North Carolinians know of the fine ability, splendid gifts and broad culture of Major Stedman, the once honored Lieutenant Governor of our State.

CURRENT COMMENT.

—The predatory man of wealth is kept busy these days nursing his bumps.—Washington Post.

—A gentleman who lost twenty out of twenty-one battles would not stay in command much longer.—Columbia Record.

Mr. Cortelyou, it is stated, has a splendid singing voice. Perhaps the fear of spoiling it is what keeps him from talking too much.—Washington Post.

—Homer Taft, brother of the world-famous lid-sitter, has a notion that he would like to reform Connecticut. Presumably a Taft delegation to the next Republican national convention would be taken as evidence of reformation.—Washington Post.

—Speaker Cannon was able to find Guilford, N. C., where he was born, with but little trouble, but he couldn't find the house in which he first saw the light nor the old sycamore tree that used to stand by the back door. However, when Mr. Cannon becomes President and famous somebody will find the house and form a society to buy and preserve it as a museum for Cannon boots and breeches and drinking grounds.—Savannah News.

—Greensboro Telegram: The overbearingness of the anti-Bryan Democrats is in stranger contrast with the forbearance of the Bryan people. The latter are plainly conciliatory. The former are in fighting mood constantly. The Bryan peaople treat the mention of the name of Daniel, or Gray, Harmon with the utmost respect. The mention of Bryan seems to send the anti-Bryanites into fits. It is perhaps the most dantankerous minority that a political party ever had to contend with.

—In reply to the Telegraph's suggestion that it would gladly support Henry Watterson for President against any man north of Mason and Dixon's line the great Kentucky tribune says he is not a candidate for any office—that he is an Editor. Well, said Mr. Watterson, the Telegraph has often taken the position that an editor ought not to run for office. It has seen in Georgia the ill effects of mixing editorial work with political ambition. The real editor at the head of a great newspaper has a greater function than any political office affords. An editor does himself and his constituency harm when he descends from the tripod and gets into the scramble for votes.—Macon Telegraph.

—Secretary Taft vouchafes the information that the American occupation of Cuba will cost this country $7,000,000. Will he now kindly tell us what the American occupation of the Philippines has cost and is costing us? This question the country has been asking long and persistently, but so far the only answer has been silence or subterfuge. It can be answered with approximate accuracy and it should be. That it has not been is a reflection upon the Administration by no means creditable. What the Philippines will eventually cost us, if we are so foolish as to continue to hold them, we do not venture to inquire, for the answer to such a question is so hidden in the womb of the future that not even so wise a statesman as Mr. Taft can forecast it aright.—Norfolk Virginian-Pilot.

TWINKLINGS.

—"I suppose," she said, with fine sarcasm, you were sitting up with a friend?" "No, my dear," replied he, truthfully. "I was settin' 'em up with a friend."—Houston Post.

—Richard was offering his kingdom for a horse. "Take notice," he cried "I didn't say tip." Herewith they saw he was one of the few sages of humanity.—New York Sun.

—"Dubley says his motto is, 'Live and learn.'" "Well, if he isn't more successful at the former than the latter we'll be going to his funeral soon". —Philadelphia Press.

—Green—I was the victim of a lynching party in Arizona once, Brown—You don't say? Green—Fact, I married the widow of a man who was strung up for horse-stealing.—Chicago News.

—"Well, well! Five years old today, eh?" said grandpa; "and, just think, I'm 75." "My! I wish I was," exclaimed Tommy. "You do? Why?" "'Cause then I'd git 75 cents instead of only five".—Philadelphia Press.

—Mrs. Housefly—Now, my daughter, you are equipped for the summer. Beware of the young men. Miss Housefly (coyly)—Ah, yes; I'll try to. I suppose it will be my fate to get mashed on some old bald head.—Judge.

—"Pouf," said the foreigner, derisively, "your finest wines and most luscious prunes come from France. Yet you boast of your products!" "Hold on," replied the Californian, "don't you know my State yields those very wines and prunes?" "But ze label!" said the foreigner. "Zat is ze work of France. Has America such art? Again pouf!"—Philadelphia Ledger.

GIVING OUT.

The Struggle Discourages Many a Citizen of Wilmington.

Around all day with an aching back;
Can't rest at night;
Enough to make any one "give out."
Doan's Kidney Pills will give renewed life.
They will cure the backache;
Cure every kidney ill.
Here is Wilmington proof that this is so:

E. Poezolt, merchant tailor of Eight South Front street, residing at 315 North Sixth street, Wilmington, N. C., says: "My wife used Doan's Kidney Pills and in her case they proved to be an effective remedy. She suffered with her ankles and could scarcely get down stairs in the morning. We thought it was rheumatism, and her ankles would be all pulled up every morning, so she could hardly hobble around. Since obtaining Doan's Kidney Pills at R. R. Bellamy's drug store and taking them she seems like another person. She is better in the morning, the swelling left her ankles and from the great relief she obtained we are only too glad to recommend Doan's Kidney Pills to others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A Narrow Escape.

G. W. Cloyd, a merchant, of Plunk, Mo., had a narrow escape four years ago, when he ran a jimson bur into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at R. R. Bellamy, Druggist.

Nadinola
BEAUTIFIES THE COMPLEXION

A CREAM, guaranteed to remove freckles, pimples, liver spots, tan, sallowness, discolorations and eruptions; the worst case in 10 to 20 days. Leaves the skin clear, healthy and restores the beauty of youth. Endorsed by thousands of grateful ladies. 50c., $1.00, by your druggist or mail.

ATLANTIC NATIONAL BANK

The published statement of the Atlantic National Bank shows a LARGER line of Commercial and Personal Deposits than any other National Bank in this State. It seeks such accounts and is especially well prepared to handle them.

It also shows a sufficient amount of money on hand to provide for the wants of depositors—and is one of the few commercial banks doing business in North Carolina that has no need to borrow money.

Its large resources—over one and one-half millions of dollars—is employed in legitimate business enterprises of this section.

MR. J. A. BROWN ON BERRY CROP

Growers Got Good Prices This Year, But Crop Was Short on Account of Cold Weather—Some Interesting Facts.

(Charlotte Observer, June 3.)

An Observer man wrote to Mr. J. A. Brown, of Chadbourn, sometime ago and asked him to prepare an interview on the strawberry situation in his section of the State.

"How was the strawberry crop this season?" Mr. Brown was asked.

"Thirty-three per cent. of a crop as compared with 1906; fifty per cent. as compared with 1904 and 1905," was the answer.

"Have the prices been fair?"

"Yes, the best on record."

"Did the farmers make money?"

"No, a few individuals did, but the crop as a whole was not profitable, and in many instances a failure. Just here it is necessary to use figures in making comparisons. We have shipped this year from the Chadbourn territory 125,000 32-quart crates that sold for an average price of $3 per crate, the total sales being $375,000. In 1906 the same territory shipped 320,000 crates and the average price was about $2, total crop bringing $640,000. If we stopped here these figures would be misleading. There is a fixed cost of crating (packages), picking and cartage, of 80 cents per crate, therefore the cost of marketing will very materially effect the net value which is about as follows: 320,000 crates sold in 1906 at $2, or $640,000; fixed cost of marketing 320,000 crates at 80 cents, $256,000; net sales to growers, $384,000.

"The crop of 1907, 125,000 crates, sold at an average of $3, making $375,000; cost of marketing at 80 cents, $100,000, and net returns to grower, $275,000, showing a decrease in amount of returns as compared with 1906 of $109,000.

"This latter amount, however, was derived from 25 per cent. decrease in acreage, saving for the grower about $30,000 cultivating expenses. The charges designated as fixed charges of 80 cents per crate does not include the cost of cultivation, but includes only the cost of picking, crating and cartage, as specified.

"The crop of 1907 has therefore been about as profitable to the grower as the crop of 1906. The crop of 1906 was not a profitable one, due to the excessive wet weather during the picking season and poor transportation.

"The crop of 1905 was also an unfavorable one, this being the year the car shortage occurred. We should, therefore, make the comparison with 1904, the year that was a profitable one.

"In the year 1904 the territory shipped from an acreage about the same as we have this year 225,000 crates, which brought $540,000, deduct the cost of picking, packing and cartage 80 cents per crate, or $180,000; net for the growers, $360,000, as against $275,000 in 1907.

"You can readily see from these figures that 1904 was much more profitable to the growers than either of the three following years."

"Do I understand that you have not had a successful season since 1904?" was asked.

"Yes. There has been comparatively no profit to the growers since 1904, taking the crop as a whole. Individuals here and there have made a profit, but the general results have not been satisfactory."

After giving the cause of failure or bad results of the strawberry industry for different years, and those which make this crop practically a failure, he was asked:

"What effect will these failures have on the business for the future?"

"It should, and I think will, have a good effect; the majority of people learn only from experience. The berry growers of this vicinity have fallen into the same habits of the cotton growers: Planting every thing in strawberries and paying no attention to diversification. Our farmers are already diversifying their crops more, and have at last found out that it is not profitable to cultivate more berries than can be profitably gathered. I have never seen a year when the markets were more anxious for our products than this one, the product this year has not been sufficient to supply the demands, but had the crop been a full one it would have been impossible to have secured the labor with which to harvest, and while the product possibly would not have been greater than the markets would have absorbed, many of the individuals had more berries than could have been profitably handled.

Remarkable Rescue.

That truth is stronger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., hte residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c and $1.00 at R. R. Bellamy's drug store. Trial bottles free.

He Fired the Stick.

"I have fired the walking stick I've carried over 40 years, on account of a sore that resisted every kind of treatment, until I tried Bucklen's Arnica Salve; that has healed the sore and made me a happy man," writes John Garrett, of North Mills, N. C. Guaranteed for Piles, Burns, etc., by R. R. Belalmy, druggist, 25c.

PROPOSITION 10—
For prepaid **new** subscriptions to the amount of $50.00, a fifteen-day round ticket and $5.00 in cash.

PROPOSITION 11—
For prepaid **new** subscriptions to the amount of $40.00, a free ticket from your home to the Jamestown Exposition and return.

RULES GOVERNING THE CONTEST. READ THEM CAREFULLY:

A.—All subscriptions must be received at the regular published rate. No discounts or commussions whatever will be allowed.

B.—**No subscriptions will be received for a less time than three months.**

C—**Every subscription sent in under this offer must be a bone-fide new subscription to The Morning Star. No others will be received, and a careful investigation will be made to determine whether or not the name sent in is a new subscriber.**

D.—**Cash must accompany all orders.**

E.—All that is necessary to win any of the trips enumerated above is that the subscriptions sent in shall aggregate the amounts named. Orders need not be for yearly subscriptions only. In securing subscriptions the following ratio may be observed: Two six-months' subscriptions are equivalent to one yearly subscription; four three months' subscriptions are equivalent to one yearly subscription.

F—The names of new subscribers, and the amounts collected, should be **sent in as soon as obtained.** Receipts will be forwarded to the subscribers at once, and the amount placed to the credit of the contestant.

G.—This exceptional offer will remain open to all until September 1, 1907. If you get to work at once there is time a plenty for you to secure one of the best trips. You may visit the Exposition any time you please.

PERSONAL PARAGRAPHS.

—Hon. H. L. Godwin, of Dunn, N. C., was a guest at The Orton yesterday.

—Mr. Will Edwards and sister, Miss Margaret, of Kinston, are guests of their sister, Mrs. Tate, in this city.

—Master James Craig, son of Mr. and Mrs. Jos. F. Craig, of this city, is on a visit to Mr. R. B. Branch, at Red Springs, N. C.

—J. B. Schulken, Esq., of Whiteville, and H. L. Stevens, Esq., of Warsaw, were among the visiting attorneys in the city yesterday.

—Mr. Bruce Hall, son of Mr. and Mrs. Virginius Hall, of this city, has returned from New York, where he has been pursuing studies in art during the past Winter and Spring.

—Miss Bella Leet, for many years a missionary in Japan, but now living at the family home at Tar Heel, N. C., is in the city the guest of Mrs. D. G. Worth, on South Front Street.

—Messrs. Walter E. Yopp and James F. Woolvin are in Raleigh attending the 18th annual convention of the Funeral Directors and Embalmers of the State. The sessions will last through today.

—Dr. and Mrs. R. E. Markham left yesterday for Kentucky, where they will spend a while with friends and relatives. They have rented a handsome suite of offices in the Carolina Apartment House and will occupy them for the practice of osteopathy when the building is completed.

—Mr. William Hull Moore and his friend, Mr. Leland Whitney, are in Washington on a pleasant mission. Yesterday afternnon at 5:30 o'clock Mr. Moore claimed as a bride Miss Annie Sappington, of that city, Mr. Whitney having served as best man at the ceremony. Mr. Moore and bride, after their return from a Northern bridal tour, will be at home at the residence of Miss Julia James, Third and Grace streets.

CAROLINA TRAINING SCHOOL.

First of Big Meetings at Wrightsville Beach—Railroad Rates.

On account of a press of other matters the attention that it deserves has not been given in the public prints to the third annual meeting of the Carolina International Training School for Sunday School workers of all denominations in the Carolinas to be held at Wrightsville Beach the week of June 14th.

"The school in 195 enrolled 220 students; in 1906 it enrolled 390 students. It has met a great and widespread demand, and is the one great Training School for all Sunday School workers along the Atlantic Seaboard. At a very reasonable board rate, at one fare for railroad ticket, at a season most timely for leaving home, one can attend a splendid school without fee for enrollment, and combine study under the finest of American Sunday School specialists with a week's most delightful outing.

Again Miss North brings her fine skill in blackboard daily drill and special pad-sketching as suited to Sunday School pastors, superintendents, and teachers. Mrs. Hamill will continue to help the primary and junior teachers. President Scherer will deliver another great series of lectures —this time upon "The Hand of God in History." Dr. Hamill will give Old Testament Bible drills along the lines of the Sunday School lessons, and will conduct a daily helpful conference. Last and possibly best, Mrs. Lamoreaux, the most brilliant lecturer on Child Study in the land, will address the School each day. Local speakers also will take part. For programmes write to Mr. W. B. Cooper, Wilmington, N. C., business manager.

STORM IN ROBESON.

Colored Hotel Porter Arrested on Serious Charge at Lumberton.
(Special Star Telegram.)

Lumberton, N. C., June 5.—Joe Jones, a colored porter at the Waverly Hotel of this place, who claims Columbia, S. C., as his home, was arrested this afternoon on the charge of an assault upon a colored girl. When the trial was called before Esquire J. H. McNeill, the case was compromised by Jones' promising to marry the girl and paying all costs.

This afternoon about five o'clock a section a few miles north of here was visited by a terrific electric, wind and hail storm, which left destruction in its track. Trees were twisted and torn and the ground was covered with hail. The damage cannot yet be estimated.

Shipping Memoranda.

The schooner Chas. C. Lister, Capt. Moore, arrived yesterday from New York with a cargo of coal to The Springer Coal Co., reporting to Mr. C. D. Maffitt. The schooner Charlotte T. Sibley, Capt Coombs, cleared yesterday, light for Beaufort, N. C., where she will load for New York.

LOCAL DOTS.

—The Young People's Society of St. Matthew's English Lutheran Church will hold its weekly meeting this evening at 8 o'clock. The public is cordially invited.

—The excursion on the steamer Wilmington Tuesday for the benefit of the teams of the City Baseball League was well patronized and a goodly sum was realized for the benefit.

—A party of local anglers left the city this morning at 4 o'clock on the steamer Madeleine for a trip to the Black Fish "grounds". The party will return late this afternoon.

—The Baraca baseball teams of the First Baptist Church and Grace M. E. Church are practicing hard for the opening games which will be played soon. There is talk of a Baraca Baseball League and a diamond will perhaps be secured at some convenient place.

—The annual outing of the Sunday School of the First Baptist Church will be given at Carolina Beach today. There will be several trips of the steamer Wilmington during the day and a large attendance is expected. The weather promises to be delightfully pleasant for a day by the sea.

—Circle No. 10 of Fifth Street M. E. Church will run an excursion to Southport and Fort Caswell on Friday, leaving the city at 9:15 A. M. and returning the same evening. There will be music and refreshments on the boat and a delightful time for every one who becomes a guest of the ladies for the trip.

—Miss Louise Rutland, daughter of Mr. Walter Rutland, formerly of this city but nof residing in Tarboro, N. C., attained the highest average mark before reached in the graded schools in that town, this being 99.6. Friends of Miss Rutland in this city will be delighted to know of her success in the Tarboro schools.

—Summer was here for certain yesterday and even the day before the temperatures were quite high. As usual the weather map shows that Wilmington was lowest in the State so far as maximums were concerned. For the 24 hours ended at 8 A. M. yesterday the maximum here was 75 degrees; Charlotte was 76, Goldsboro 82, Greensboro 82, Lumberton 82, Raleigh 78 and Weldon 79.

—The Boys' Brigade has decided to go into annual encampment at Southport for one week beginning Saturday, June 20th. Thirty-five of the 50 members of the command have already signified their purpose of taking the outing with the command. Others have been unable to give a definite answer until they have seen their employers. Details of the encampment will be announced later.

—"The Passion Play" being presented this week at The Theatorium, the new moving picture theatre on Market street, is attracting large crowds. The pictures are highly colored and are decidedly attractive. It is possibly the most noteworthy exhibition of moving pictures ever presented in this city. The new theatre is decidedly comfortable and the patronage of ladies and children is especially catered to.

—The following building permits have been issued: R. F. Hamme, rebuild residence, two-story, slate roof, on Fourth, between Princess and Chesnut streets, five-rooms to cost $2,200, Porter & Matthews, contractors. S. A. Schloss, one-story, six-room dwelling to cost $600; in alley between Swann and Nixon, O. B. Skipper, contractor. C. O. Russ, contractor for Mrs. Jones, two-room addition to house at Seventh and Harnett, to cost $200.

MR. GORDON JOHNSON MARRIED

Claimed Miss Rachael Savage as Bride Yesterday Evening.

A quiet but pretty wedding was solemnized in the parlor of Grace M. E. Church, South, yesterday afternoon at 6 o'clock, when the pastor, Rev. N. M. Watson, performed the marriage ceremony for Mr. Gordon C. Johnson and Miss Rachael Savage, two well known young people of Wilmington. Miss Jennie Corbett skilfully rendered the bridal chorus from Lohengrin while the couple entered and presented themselves at the altar, the beautiful ring service being used in plighting their troth. Miss Annie Fonveille was maid of honor, and Mr. W. S. Register was Mr. Johnson's best man.

The parlor was beautifully decorated for the happy affair and the ceremony was witnessed by a number of relatives and friends of the bride and groom. The bride was attired in a becoming going away gown of blue silk and wore a tan hat with blue trimmings. After receiving the felicitations of the guests, the couple, accompanied in carriages by relatives and friends, proceeded to Front street railway station where they took their departure on the 6:30 P. M. train, on the Atlantic Coast Line, for Norfolk. They will spend a few days at the Jamestown Exposition and will continue their bridal tour to Washington and other cities during an absence of ten days. When they return, Mr. Johnson and his bride will be at home at 712 Dock street.

The bride is a daughter of Captain T. M. Savage, of Southport and is greatly esteemed by a large circle of friends and acquaintances. Mr. Johnson is one of Wilmington's young business men and has a host of friends in this and other cities. His friends will congratulate him upon winning the heart and hand of one so attractive.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other.

OFFICIAL VISIT TO CASWELL.

Hon. H. L. Godwin the Guest of Capt. Earl I. Brown Yesterday.

Hon. H. L. Godwin, Congressman from the Sixth District, was the guest of Capt. Earl I. Brown, in charge of the corps of United States Engineers in this district, for a visit to Fort Caswell yesterday. They went down on the government steamer and made a thorough inspection of the lower Cape Fear river and harbor work, and the fortifications built by Uncle Sam to guard the approaches to Wilmington. Mr. Godwin remained over in the city from the conference with President Taylor and others of the Chamber of Commerce Tuesday and took the trip by invitation of Capt. Brown. It was Mr. Godwin's first trip to the fort, and he was enthusiastic at the magnificence of the defences there, and was very grateful to Capt. Brown for the privilege of visiting the garrison. He has been won as a staunch friend of the Cape Fear project and of the proper maintenance of Uncle Sam's defences at the mouth of the river. Later Mr. Godwin will be a guest of Capt. Brown for a trip up the river to inspect the project for locks and dams between here and Fayetteville.

Real Estate Transfers.

The following deeds were filed for record yesterday: Henry Green and wife, to Annie E. Simmons, for $150, property near Sixth and Dawson streets, 33x165 feet in size. R. A. Burnett and wife to John Darden and wife for $10 and other valuable considerations, property on west side of Second street, 99 feet south of Martin, 53x118 feet in size.

Mrs. Geo. W. Loring Dead.

Friends and relatives in this city have learned with sorrow of the death of Mrs. George W. Loring, nee Miss Nessfield Green, formerly of this city, but for the past number of years a resident of Sumter, S. C. The funeral services were conducted at Sumter and the interment was there.

Chamber of Commerce Meeting.

The special meeting of the Chamber of Commerce this afternoon at 4 o'clock will be one of importance, and it is urged that all members be present. Subjects of general interest in the business community will be presented for consideration and it is hoped to have a very large attendance.

THE MALE OPERA HAT.

Why It Rises Superior to Any Passing Fashion Dictates.

Men generally protest against the changes of style in hats, and one of the sex has written to the New York Mail this complaint:

Why attack as a "collapsible, many named pretender" the opera hat, or chapeau de claque?

I have such a hat and also a silk hat, in which respect I think I differ from most Gothamites. Whenever I have an option I wear the opera rather than the other. It's more convenient.

At the theater or opera you can carry it better on your between the acts promenades. If there is no rack for your hat under the seat you can tuck it in your overcoat and put it on the floor under you without destroying it, as you would do with a silk hat.

If you put your hat in the rack under your seat and then rise and stand close to it to permit a late comer to pass an opera hat suffers no damage. A silk hat would be either ruffled or crushed.

The opera hat looks as well at all times as the silk hat and requires much less care. Indeed, I think it looks better. The glossy surface of a silk hat, like the glossy bosom of a stiff white shirt, is an uncomfortable survival of the time when men wore polished helmets and breastplates.

There is so much reason in the opera hat that men of discrimination will continue to wear it, the style of the moment regardless.

A Dog Habit.

Have you ever thought why it is that a dog turns around and around when he jumps up on his cushion or starts to settle himself anywhere for a nap? Now that you are reminded you can recall that you have seen a dog do it many times, can't you? This habit is about all that is left to our tame little doggies of the days long ago, when they were a race of wild animals and lived in the woods. Their beds then were matted grass and leaves, and it was to trample enough grass and properly arrange the leaves that the dog always trod around a narrow circle before he would lie down. The dog of today keeps up the same old habit, although there is no longer any need for it, and of course the animal has no notion why he does it.

A Bond of Sympathy.

While the new maid tidied the room the busy woman kept on writing.

"Do you make that all out of your own head?" asked Jane.

"Yes," said the busy woman.

"My," said Jane admiringly, "you must have brains!"

"Brains!" sighed the woman despondently. "Oh, Jane, I haven't an ounce of brains."

For a moment Jane regarded her with sincere commiseration.

"Oh, well," she said presently, "don't mind what I say. I ain't very smart myself."—New York Press.

Similarity of Writing.

"From my pile of autographs I take one of a statesman well known and lay it side by side with the autographs of a great author and a great ecclesiastic," writes a British publicist. "All three are very small, exquisitely neat, very little slanted, absolutely legible. Well as I knew the three writers, I doubt if I could tell which wrote which. They were Cardinal Manning, Mr. Froude and Lord Rosebery. Will the experts tell me if in this case similarity of writing bodied forth similarity of gifts or qualities?"

PUSHED to the FRONT

Yes, that is what has pushed Belle of Virginia out in the front rank of good whiskies—the fact that it is founded on quality. We ask you to try it the very next time you feel the need of a good drink of whiskey. It is blended from pure, carefully aged whiskies—the best blend our years' of experience has taught us—a whiskey which will appeal to you from the first taste and grow upon you as the days go by. Don't forget to ask for it and try it.

Sold at the places where gentlemen go to get a drink.

TWELVE MEN TO BE EXECUTED

Were Among 19 Convicted of Attempt to Assassinate Guatemalan President.

SPANIARD TO BE HANGED

Other Condemned Men Are Guatemalans—One Mexican and Three Italians Sentenced to Fifteen Years Imprisonment.

(By Wire to the Morning Star.)

Mexico City, June 5.—According to a telegram received in this city tonight, 12 of the 19 men condemned to death by court martial procedings because of an alleged attempt on the life of President Caberera, of Guatemala, will be executed. Eleven of these men are Guatemalans. One of the Mexicans accused, Jose Mendoza, was exonerated. The other Mexicans implicated, Nazaro Mendoz, was sentenced to fifteen years imprisonment. Two Italians charged with complicity in the attempt were each sentenced to fifteen years imprisonment. Of the other foreigners on trial, one, a spaniard, will be executed. The dispatch characterizes the condemned men as honorable and innocent victims. At the State Department no comment was made on the action of the revision court.

WAR BALLOON ACCEPTED.

United States Now Has Aerial Fighting Ship.

(By Wire to the Morning Star.)

Washington, June 5.—The government today accepted the new war balloon which was given its trial test yesterday by a flight which began here and ended a few miles north of Harrisburg, Penn. According to Captain Chandler, of the signal corps, who was one of the party making the ascension, the balloon answered every demand made upon it. In the higher altitudes the air current was much slower than in the lower strata, consequently the balloon was brought back nearer the earth for most of the flight. A collision with a house was narrowly averted when the landing was made, necessitating the use of the emergency cord which ripped the balloon open to allow the immediate escape of the gas.

TWO CONTINENT SHAKES.

Earthquakes at San Francisco, and in France and Ecuador.

(By Wire to the Morning Star.)

San Francisco, June 5.—An earthquake shock lasting about ten seconds was felt here at 12:27 this morning. The oscillations were from north to south. No damage has been reported.

Pau, France, June 5.—A slight earthquake was felt in the Oloron region of the Lower Pyrnes today but no damage was done.

Guayaquil, Ecuador, June 4.—Two earthquake shocks were felt here at about 10 o'clock last night. The first was slight and the second, which lasted twenty-five seconds, was violent and made many families abandon their houses and remain in the streets for several hours.

GLENN ON RAILROADS.

Notable Speech in Raleigh Last Night.

(By Wire to the Morning Star.)

Raleigh, N. C., June 5.—Governor Robert B. Glenn tonight in his address at the formal opening and dedication of the News and Observer's handsome new building announced that North Carolina would vigorously fight the suits of the railroads attempting to set aside the acts of the Legislature reducing freight and passenger rates. He said that this act of the railroads would still further widen the breach between the people and the corporations in North Carolina and that while he regretted that the railroads had taken the course they had that he felt that the reduction was a just one, and that all the powers of the State would be used to uphold the acts in the courts.

POWDERLY GETS GOOD JOB.

Will Have Position Under Immigration Bureau.

(By Wire to the Morning Star.)

Washington, June 5.—T. V. Powderly, was today appointed chief of the new division of information established in connection with the immigration bureau, of the Department of Commerce and Labor at a salary of $3,500 per year. The new division will conduct correspondence with governors and officials of the various States and territories with a view to the best distribution of aliens. Mr. Powderly was formerly commissioner of immigration and more recently special agent of the Department of Commerce and Labor in Europe.

RALEIGH NEWS AND OBSERVER.

Forty-Third Anniversary Celebrated by House Warming.

(By Wire to The Morning Star.)

Raleigh, N. C., June 5.—In its handsome new building, one of the best equipped in the South, the News and Observer formally celebrated its entrance into its new home with a "house warming." The paper is 43 years old. A large crowd attended. There were addresses by Governor Glenn and former members of the editorial staff, including Chief Justice Clark. Josephus Daniels, the North Carolina member of the Democratic National Executive Committee, is editor of the paper. The building was dedicated by Rev. R. H. Whitaker, one of the oldest editors in the State.

Charles F. Mills, of Savannah, Ga., has been elected captain of the Yale freshmen crew. He rows number 7.

REAL RHEUMATISM.

The Causes and Symptoms of Uric Acid in the Blood.

Rheumatism, so called, is probably as common as any ailment one ever hears of, and yet if one were to analyze carefully the average case of rheumatism the result would doubtless show that the disease was something very different indeed from the real thing. Almost everybody when suffering from a slight stiffness of a joint or a muscular soreness promptly makes a diagnosis of rheumatism when in reality the case is nothing more than what in technical language is known as lithaemia, sometimes called American gout.

The real disease of rheumatism is the result of an accumulation in the blood of imperfectly converted food, principally uric acid. This accumulation is due to intemperance in eating and drinking and insufficient active exercise.

Heredity in some cases seems to play an important part. In the great majority the symptoms follow a regular order, beginning with a feeling of fullness and discomfort after meals, indigestion, nausea and an unpleasant taste in the mouth, followed by throbbing headache, nervous irritability and vertigo, muscular pains which may be confined to one or more muscles or skip about them one to another. Lastly, and in most cases the most troublesome of all symptoms, is depression of spirits, the patient imagining that he has all sorts of ailments. Persons suffering from mental disorder as a result of this disease have been known to commit suicide. Fortunately these cases are not common, but it should be remembered that they are among the possibilities.—A Doctor in New York World.

STAGESTRUCK.

An Incident of the Boyhood Days of William McKinley.

One does not readily associate our martyred president, William McKinley, with an ambition to become an actor, but in a grouping of eminent personages who have conceived at one time or another in their lives a passion to tread the boards we find the subjoined account:

"It was while holding the humble position of clerk at a hat store in Cincinnati that Mr. McKinley became stagestruck and once confessed that he did not outgrow his desire to become an actor for many years afterward. This desire arose through witnessing the Shakespearean plays as presented by the great tragedian, Edwin Forrest, for whom Mr. McKinley conceived a great admiration.

"'Imagine my feelings,' the president said on one occasion when relating his boyish ambitions, 'when Forrest walked into our store one day to make a purchase. I rushed to the front in order to serve my ideal hero of the theater. The sale, however, was made by an older clerk, but I was given the privilege of pressing and stretching the hat. The great actor stood near me, observing my work, and the smile of appreciation which he gave me was one of the events of my youth.'"—Scrap Book.

Growth of Rocks.

Rocks do not grow in the sense that a plant grows. They may increase by accretion, and they may undergo chemical change. The old sea bed, being lifted up, becomes sandstone and limestone. The volcanic ash and lava strewn over the plains become tufa, hard enough for building stone. The pebbly shore of a river becomes conglomerate. The simple mineral does grow, however, when it takes a crystal form. The sparkling prism of quartz increases from an atom to a crystal as large as a forearm by a process of addition and assimilation, wonderfully slow but beautifully regular, exactly as crystals of ice form on the window pane.

Why Bulls Hate a Red Flag.

In the first place, says an English writer, red is a color to which cattle are unaccustomed, so that they may naturally be supposed to be startled by its very novelty. Scientists show the sensation of red to be the complement of that of green, being induced by exactly opposite affections of the retina. If the eyes of cattle are constructed on a similar principle to our own the continual contemplation of green, as in trees and herbage, must produce a state of retinal fatigue, predisposing a violent excitement of the retina immediately a red substance is presented to view.

Bismarck's Love of Authority.

At 9 p. m. we took tea with the king. I was seated opposite him when a footman came and whispered in my ear that Bismarck desired to see me. Great embarrassment! Puckler having told me I might leave the table, I did so. The king inquired what was the matter and permitted me to go. Bismarck had nothing of particular importance to tell me, and I suspect that he only wanted to show that he had the right to send for his employees even when they were with the king.—Hatzfeldt Letter.

Strictly Business.

"The graspin'est man I ever knowed," said Uncle Jerry Peebles, "was an old chap named Snoopins. Somebody told him once that when he breathed he took in oxygen and gave out carbon. He spent a whole day tryin' to find out which of them two gases cost the most if you have to buy' em. He wanted to know whether he was makin' or losin' money when he breathed."—Chicago Tribune.

The universe is not rich enough to buy the vote of an honest man.—Gregory.

WARM WIRELETS.

Richard Croker's Orby, ridden by "Johnny" Reiff, the American jockey, won the derby stakes of 6,500 sovereigns at Epsom, near London, yesterday; distance about one mile and a half.

John G. Capers, of South Carolina, who was on Tuesday appointed commissioner of internal revenue ad interim took the oath of office yesterday and immediately entered upon the discharge of his duties.

Southern Passenger Train 82 plunged off an embankment 15 feet high at Black Branch, near Lebanon, Tenn., yesterday morning, injuring 57 out of 60 persons on board. One report says the wreck was caused by spreading rails; another that the front trucks of the engine jumped the track. Only nine of the injured are seriously hurt.

At Portland, Ore., in the United States District Court yesterday indictments were turned against 180 furniture dealers in Oregon, Washington, Idaho and California, for alleged violation of the Sherman anti-trust law. The list includes nearly every manufacturer and jobber in the States named, and a large number of retail dealers. They are in a combination to control prices.

While on his way to attend the commencement exercises at Vassar College, where his daughter was a member of the graduating class, John Addison Hedrick, a prominent business man of Salisbury, N. C., was stricken on a train late last night and removed to the Georgetown University Hospital in Washington, where he died yesterday. The body was sent to Salisbury last night. His eldest daughter is the wife Redfield Proctor, Jr., son of United States Senator Proctor, of Vermont.

At Wytheville, Va., yesterday the Virginia Supreme Court of Appeals granted a writ of error in the case of John W. Richards, the former Floyd county school teacher, who was convicted of the murder of Maurice Francis, of Roanoke. The petition was the longest ever presented to the court. Richards and Francis were rival suitors. Francis was killed on the public highway while going to visit his fiancee. There was no witness to the tragedy and Richards was convicted on circumstantial evidence at his second trial, and was sentenced to hang on January 4 last.

The Magic No. 3.

Number three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Me., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best on earth for stomach, liver and kidney torubles, by R .R. Bellamy ,druggist. 50c.

THE VALUE OF A BEGINNING.

Too many people look down on small beginnings.

They think they will open a Savings Account when they get a hundred dollars. We have seen a good many more substantial savings develop from a start of $1 and DETERMINATION to get ahead, than from a hundred dollar start without determination.

WE LIKE THE SMALL BEGINNINGS. THEY SHOW THE TRUE SAVING SPIRIT. WE AIM TO MAKE THIS, IN FACT, THE PEOPLES' SAVINGS BANK.

4 Per Cent Interest Paid on All Accounts.

ju 2 tf.

SPIRITS TURPENTINE

—The North Carolina Funeral Directors' and Embalmers' Association met in Raleigh on Tuesday.

—The Secretary of State has chartered the Wolf Rock Granite Company, of Wolf Rock, in Wilkes county, to quarry, manufacture, sell and deal in granite, etc. The authorized capital stock is $400,000 with $300 subscribed.

—Raleigh News and Observer, June 5: A suit entitled Royal & Borden Furniture Company vs. Claudius Dockery and Miss Maude Dockery, has been started in the Superior Court by Mr. W. C. Douglass, attorney, J. C. L. Harris appearing as attorney for the plaintiff.

At a meeting of the trustees of Trinity College at Durham on Monday the most important business transacted was the establishment of a new chair in the academic department. This chair will be known as the chair of science and history of education. This, with the chair of Biblical literature, established by the North Carolina Conference last fall, will give Trinity two new chairs next year, thus enlarging its usefulness greatly. A man to fill the new chair will probably be chosen at tomorrow's session which will be held at 10 o'clock.

—Salisbury, —une 4: With a membership of more than one hundred of Salisbury's leading citizens a Law and Order League was organized at the Baptist Church here Sunday afternoon. W. F. Snider, cashier of the Wachovia Bank of Salisbury, was named as president, and Bismarck Capps, a well known attorney, was chosen secretary. The object of the League is to co-operate with the city officials in the enforcement of the law, especially along social and moral lines. The mayor and chief of police will be asked to close all houses of prostitution.

—Kenansville Eastern Carolina News: A cotton chopper of a home patent is now being given a trial test at Warsaw and it is proving a success Mr. J. A. Powell put the machine to work on Saturday and he informed us that it did good work. Many cotton chopping machines have been gotten up by inventive minds, but they have always been found wanting when the time came in May for farmers to "chop to a stand." Such a machine is badly needed these days, for it is a waste of money to grow cotton and pay labor $1.00 per day to lean on hoe handles with one foot on the knee.

—Quite a delegation of Confederate veterans from the east and south passed through the city today "on to Richmond," and were joined here by a number from this locality. While waiting between trains in front of the Hotel Kennon, an old gentleman came up and spoke to Dr. W .H. H. Cobb, and exhibited his right hand, which was minus a little finger. "That was your first job as surgeon of the 2nd North Carolina Regiment," said the gentleman, "and I have not seen you since that day in the field hospital forty-four years ago." The gentleman was Mr. James M. Reel, of Company F, and hails from Reelsboro, in Pamlico county.

—Asheville, June 4: Charles Morgan a young married man of the Craggy Mountain region, fifteen miles from Asheville, came into the city this morning and surrendered on a charge of shooting, with intent to kill, Clayton Stevens. The shooting occurred last evening. Morgan fired three shots. One of the bullets entered Stevens' left side, another broke the left arm, while a third smashed the butt of Stevens' revolver which lay against his left side and which fortunately protected the heart. Bad blood has existed between the men for some time and when they met yesterday it is alleged that without a word being spoken Stevens went for his gun, but Morgan was too quick and fired three shots in rapid succession. There is some hope that Stevens will recover.

—Last Saturday a destructive wind, rain and hail storm swept over a large section of country seven miles east of Saratoga near the Pitt county line razing growing crops to the ground in its wake on the plantation of T. R. Eagles, William Owens, Robert Owens, H. C. Turnage and J. S. Owens. The havoc was great but the one to suffer the heaviest loss was J. L. Owens, as his entire crop was destroyed. The roof on the gin house of Mr. H. C. Turnage was torn from the rafters. Mr. Ellis came near losing 11 head of fine mules which happened to break from the stable just before it was demolished. Ben Howard was also a loser but not as much as during the storm of a week or so ago. From all sections of Wilson county reports are to the effect that the rain and wind were very severe.

The scent of roses pervades the breach of the girl that takes Hollister's Rocky Mountain Tea. Bright eyes, red lips, good health follow its use. 35 cents, Tea or Tablets. J. H. Bunting Drug Co.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

TURKEYS—Firm, live 15@16c; dressed 20 @ 22c.

THE COTTON MARKET.

(By Wire to the Morning Star.)

New York, June 5.—The cotton market was lower early today but had a sharp advance later and closed firm at a net advance of 10 to 14 points. Sales for the day were estimated at 500,000 bales. The opening was steady t a decline of 10 to 13 points under slightly disappointing cables, favorable weather reports, liquidation and selling by some of the local bears. But there was good buying at the decline by old longs who had taken profits on their lines last week and the market steadied up during the early session to within 2 or 3 points of last night's close. The forecast for cloudy and showery weather in the western belt was said to be just what was needed by the crop to prevent damage from high temperatures however and prices weakened again before midday under renewed liquidation with prices selling off to a net loss of 15 to 16 points on the active months. The market was steadied by covering and buying by big spot people around this level and later in the afternoon had a very good advance on aggressive bull support and sensationally bullish crop reports from the western belt where it was said to be raining very heavily in some sections with many fields flooded. The rally carried prices about 28 to 30 points above the low level of the forenoon and the close was within a point or two of the top. There was nothing in the official weather reports to confirm the private reports of damaging conditions in the western belt. Southern spot markets were generally firm and unchanged.

Receipts at the ports today 8,682 bales against 9,907 last week and 8,578 last year, for the week 35,000 bales against 52,780 last week and 55,470 last year. Today's receipts at New Orleans 2,706 bales against 2,663 last year and at Houston 629 bales against 1,911 last year.

Spot cotton closed steady; middling uplands 12.90; middling gulf 13.15; sales 100 bales.

Futures closed firm.

Month.	Open.	Close.

C.: June 6.85 1-2; June and July 6.73; July and August 6.70 1-2; August and September 6.62; September and October 6.53; October and November 6.44; November and December 6.40; December and January 6,37; January and February 6.35 1-2; February and March 6.36; March and April 6.36; April and May 6.37.

DRY GOODS MARKET.

New York, June 5.—The dry goods market was strong in the cotton goods division today. Retailers had another fair day's trade as compared with some of the day's of last week. Mens wear lines for Spring is being bought conservatively. Knit goods and underwear for spring 1908, are now open at an advance of about 15 per cent. over the prices of last year. Black taffeta silks are selling well.

FINANCIAL MARKET.

New York, June 5.—Money on call easy 1 3-4 to 2, ruling rate 2, closing bid 1 3-4, offered at 2. Time loans dull and easy for short maturities; sixty days 3 1-2 to 3-4, ninety days 4 per cent.; six months 4 3-4 to 5 per cent. Close: Prime mercantile paper 5 to 5 1-2 per cent. Sterling exchange steady with actual business in bankers bills at 4.8680 to 4.86.85 for demand and at 4.8360 to 4.8465 for sixty day bills. Posted rates 4.84 1-2 and 4.87 1-2. Commercial bills 4,83 3-8 to 1-2. Bar silver 67 1-2. Mexican dollars 52 1-8.

HUMAN MONSTER MAKES CONFESSION

Alfred Horseley Alias Harry Orchard Relates Series of Revolting Crimes.

WAS PAID TO MURDER MEN

Assassinated Gov. Steunenberg, Killed Several Men and Blew Up 14 At One Time—Brutal Crimes Beyond Belief.

(By Wire to the Morning Star.)

Boise, Idaho, June 5.—Alfred Horsley, alias Harry Orchard, the actual assassin of Frank Steunenberg went on the stand today as a witness against William D. Haywood and made public confession of a long chain of brutal, revolting crimes, committed, he said, at the inspiration and for the pay of the leaders of the Western Federation of Miners.

An understanding by the prosecutors for the State that they would by later proof and connection, make his testimony legitimate, opened the way like a flood gate to the whole diabolical story and throughout the entire day Orchard went on from crime recital to crime recital, each succeeding one seemingly more revolting than the one that preceeded.

Orchard confessed that as a member of the mob that wrecked the Bunker Hill and Sullivan mill in the Couer D'Alenes, he lighted one of the fuses that carried fire to the giant powder explosive; confessed that he set the death trap in the Vindicator mine at Cripple Creek, that blew out the lives of Superintendent McCormick and Foreman Beck; confessed that because he had not been paid for his first attempt at violence in the Vindicator mine he had been treacherous to his associates by warning the managers of the Florence and Cripple Creek Raiway that there was a plot to blow up their trains; confessed that he cruelly fired three charges of buckshot into the body of Detective Lyte Gregory, of Denver killing him instantly; confessed that for days he stalked Governor Peabody, of Colorado, about Denver, waiting a chance to kill him; confessed that he and Steve Adams set and discharged the mine under the station at Independence that instantly killed fourteen men, and confessed that, failing in an attempt to poison Fred Bradley, of San Francisco, he blew him and his house up with a bomb of giant powder.

Orchard has more brutal crimes to tell that will bring his bloody career down to its end at Caldwell, where, with a bomb he killed former Governor Frank Stuenenberg. These will come tomorrow, for he is to resume the stand when the district court sits again.

Orchard retained control of himself almost from the moment he took the stand. His eyes were bloodshot and his face mottled when he came into the room to confront the man whose life he jeopardized. He was plainly nervous and walked unsteadily to the witness stand. Orchard quickly, steadied himself and was soon talking in the soft, easy tones that characterizes his speech. His manner was easy and his gaze steady in any direction when a question claimed his attention. Orchard's eyes met those of Haywood several times and the two gazed steadily at each other with honors even in the test.

Horsley was telling of the meeting of the Burke (Idaho) Union of the Western Federation of Miners when the defense made its first strong attack. Attorney Richardson objected to the testimony on the ground that the events occurred years before Haywood was a member of the central body of the Federation and that he was in no way connected with it.

Senator Borah contended that the State had a right to prove the facts about Bunker Hill and Sullivan for the purpose of showing why the Western Federation of Miners had taken umbrage at Governor Steunenberg. Judge Wood ruled that the general facts were admissable but put a limitation on the amount of details that could be shown.

Horsley then told the story of the blowing up of the property in which, he said, W. F. Davis, later president of the union of the Western Federation of Miners at Cripple Creek, had command of the mob. He told of the seizure of a train, the theft of giant powder, the attack on the mines and, concluding, said:

"I lit one of the fuses myself."

Horsley then told of his flight into Montana and of various journeys in the Western country until he turned up in Cripple Creek in 1902, went to work in the mines and joined the Western Federation of Miners again. Under fire of renewed objections from the defense, all of which were overruled by the court, on the strength of a repeated promise by the State to show the connection of the defendant later.

The witness then told of the plot to blow up the Vindicator mine. He confessed that after the strike began he went into the mine "High Grading" and there discovered a quantity of powder.

He reported this to Davis, and there he said, began the plot to do violence in the mine. He said the first attempt was a failure because the cagemen discovered him and his pal and drew their fire, but later a contrivance was successfully fixed by which a discharged pistol set off a bomb and killed Superintendent McCormick and Foreman Beck. Five hundred dollars he said, was the reward for the murder. Then came the journey to Denver where the witness said he met Moyer, Haywood and Pettibone and entered their employment as an assassin. He swore Haywood paid him $300 for blowing up the Vindicator mine.

Then came the making of the two bombs that were tossed into the coal heap at the Vindicator mine, but they were never heard of again, and then a digression to confess that before the successful attempt at the Vindicator mine he had notified the railway management of a plot to blow up its trains carrying non-union men.

Next Horsley related how he journeyed to Southern Colorado as a guard to Moyer and here the narrative, which had been attacked from every side by the defense at every material point, halted for the noon recess.

Word that Horsley was on the stand spread through the city, and a few moments after the doors of the court were opened in the afternoon every available seat for the public was taken, and the deputies had to force the doors shut and clear away a clamoring crowd that jammed the stairway and landing.

Horsley spent the noon recess under guard at Hawley's office and at 1:30 o'clock was driven back to the court house to resume his story. He told of his journey with Moyer and his return to Denver, where it was suggested, he said, that he kill Governor Peabody, of Colorado. He said he picked Steve Adams to aid him, and together they stalked the governor between the capitol and his home, trying for a shot at him with short shot guns. Haywood and Pettibone were in the plot and furnished the witness with money from time to time.

The plot failed because Horsley and Adams followed a carriage containing two women to the Peabody home and excited suspicion.

Next came a plot to dynamite Peabody. Horsley said they made a bomb but gave the plan up at the suggestion of Haywood who was in fear that they would all be arrested. He said that he and Adams were told to "lay off" for a time; but meantime, Pettibone suggested that they kill Lyte Gregory, who had been a deputy sheriff and had given testimony against some of the members of the federation.

The witness then detailed the relentless trailing of Gregory and his final murder.

"Gregory turned and back up against a fence," said the witness, "as if to draw a gun, and I shot him three times. It certainly killed him."

Then came the frightful tragedy at Independence, followed by the flight to Wyoming, and afterwards the trip to San Francisco to kill Bradley.

Horsley told his story of the Independence explosion in a low, humdrum tone, displaying not the slightest feeling.

"Haywood and the others said they were having trouble in the convention and there threatened to be a split up," said Horsley. "They thought that if something was pulled off in Cripple Creek the excitement would make everything all right in the convention and the delegates would go home. We planned then to blow up the Independence depot in Colorado. I asked Steve Adams if he wanted to help and he said he did. I gave him the money to get the powder with and we took the powder to a cabin near the depot at Independence preparatory to using it the next night. The next day Sherman Parker told me some of the men from the convention were coming up to Independence to make an investigation of conditions there and he told us not to pull the thing off until they went away. They went away Sunday morning and the same night we placed the powder under the station platform, attached a wire to it and then waited for a train to come in. The trains brought non-union men to Independence. We used 100 pounds of the powder.

"Steve Adams and I both pulled the string which upset several bottles of sulphuric acid. This acid ran over a box of giant caps and these set the powder off. The depot was wrecked and from 12 to 14 men were killed."

Horsley swore that after his visit to Denver when he got the money for killing McCormick and Beck, he was constantly in communication and in the pay of either Haywood or Moyer, on Pettibone, Perkins or Davis; that one or all of them suggested his various crimes, and that at all meetings held after each crime his act had been warmly commended. The defense kept up its attack all through the afternoon, protesting against the admission of every material statement of the witness, but Judge Wood, accepting for the time the assurances of the State that it would make good the connection everywhere, ruled against the defense on all points save one. He declined to let Horsley tell the contents of a telegram sent to him at San Francisco by Pettibone while Horsely was engaged in the attempt on the life of Bradley. When taken from the stand Horsley was at once driven to the penitentiary, and he will be brought back to town early in the morning.

Haywood's mother, Mrs. Carruthers, of Salt Lake City, and her daughter, sat beside the prisoner and his wife, they having arrived yesterday from Salt Lake City. Mrs. Caruthers is a beautiful woman of middle age and her daughter is a pretty girl of twenty. The prisoner's two daughters were absent. Haywood held a note book in his hand and at intervals took notes of the proceedings.

EDDY TRUSTEES' PETITION DENIED

Son of Chistian Science Founder Won in Preliminary Battle Yesterday.

WHAT IT MEANS TO HER

First Step Now Will Be to Inquire Into Mother Eddy's Sanity—If She is Incompetent the Trusteeship is Void.

(By Wire to the Morning Star.)

Concord, N. H., June 5.—The petition of the three trustees to whom Mrs. Mary Baker G. Eddy had transferred her property, asking that they be substituted as plaintiffs in place of "next friends," in the suit to secure an accounting of Mrs. Eddy's property, was denied today by Judge Robert N. Chamberlain of the Merrimack Superior Court. The trustees are Henry M. Baker, of Bow; Posiah E. Fernald, of Concord, and Archibald McLellan, of Boston. The "next friends" are George W. Glover, of Lead, S. D., son of Mrs. Eddy; Mary Baker Glover, his daughter and Dr. J. Foster Eddy, of Waterbury, Vermont, an adopted son and Fer W. Baker, of Epsom, N. H., and George Baker, of Bangor, cousins. The suit is for an accounting of Mrs. Eddy's property, which it is alleged, is under control of Calvin A. Frye, Mrs. Eddy's secretary, and other Christian Scientists, who are named as defendants. The question of Mrs. Eddy's physical and mental condition figure in the action.

Within a few hours after Judge Chamberlain's decision had been announced counsel for the "next friends" caused summonses to be served upon Calvin A. Frye, Hermann S. Herring and Irving B. Tomlinson, three of the ten defendants to the original suit, requiring them to give their depositions in the equity procedings for an accounting of Mrs. Eddy's property. A summons for Lewis G. Strang, formerly Mrs. Eddy's assistant secretary, could not be served on account of his absence from the city. The summonses are returnable Monday, July 1.

Mental Condition of Mrs. Eddy.

Boston, June 5.—Attorney F. W. Peabody, of this city, one of the counsel for the "next friends" in the suit to secure an accounting of Mrs. Eddy's property, said today that the decision of Judge Chamberlain on the petition of the trustees for leave to intervene was no surprise to him.

"We confidently expected to win the decision," said Mr. Peabody, "and we will now proceed to take depositions on the whole case. This we will do at once. The first thing to be determined is the mental condition of Mrs. Eddy and our first move will be in that direction."

MUST KEEP OUT OF POLITICS.

Complaint from N. C. About Pernicious Officeholders Has Effect.

(By Wire to the Morning Star.)

Washington, June 5.—The rules of the Civil Service Commission have been so amended as to prohibit all persons in the classified civil service from taking an active part in political campaigns. The amendment was made through an executive order issued by the President and is as follows:

"Persons who by the provisions of these rules are in the competitive classified service, while retaining the right to vote as they please and to express privately their opinions on all political subjects, shall take no active part in political management or in political campaigns."

The addition was made on the recommendation of the commission, and it is the result of numerous complaints which have reached the bureau from time to time from various parts of the country, and especially from North Carolina. The order does not cover postmasters, marshals and others not in the classified service.

COLONIAL DAMES MEET.

National Society Convened at Jamestown Exposition Yesterday.

(By Wire to the Morning Star.)

Norfolk, Va., June 5.—The National Society of the Colonial Dames of North America convened at the Exposition today with 350 delegates in attendance. The opening address was made by Mrs. Overton Lea, of Nashville, Tenn. Right Rev. A. M. Dandolph, Bishop of the Diocese of Southern Virginia, offered prayer, followed by an address of welcome by President Harry St. George Tucker, of the Exposition Company Mrs. William Ruffin Cox, of Virginia, president general of the National Society, made an address followed by the reading of a poem by Mrs. Andrews, of Hartford, Conn. The address of the day was made by Bishop Thomas F. Gaylor, of Tennessee. It was a brilliant oration. The day was celebrated at the Exposition as "Colonial Dames Day."

BIG TANNERY BURNED.

Great Loss to Asheville By Fire Last Night.

(By Wire to The Morning Star.)

Asheville, N. C., June 5.—Fire of unknown origin destroyed the hair house, and what is known as the "leach house" of the Hans Rees Sons Tannery, and for a time threatened to destroy the entire plant. The loss, estimated at from $65,000 to $75,000 is said to be covered by insurance. At 1:40 o'clock the fire was fully under control.

A Turkish vessel, laden with contraband ammunition and bound for Tripoli, has been blown up in the vicinity of port Zarziss. Her entire crew of about fifty men, as well as 80 fishermen who were alongside at the time, were drowned. The local authorities learned the vessel was about to try to disembark her cargo on the beach.

The Wilmington Furniture Company's ad. in this issue reveals facts that should interest housekeepers. Read it. *
